

**NATIONAL GREYHOUND ASSOCIATION
APPLICATION TO REGISTER SIRE OR DAM IN DNA PROGRAM
FORM 1A**

To be completed by owner or lessee of potential sire or dam, thereby ordering a DNA Sample Collection Kit and Form 1B (to be sent directly to state-licensed veterinarian). This form should be submitted no less than 20 days after the breeding for sires, no less than 10 days after whelping for dams, if not yet DNA registered, so the DNA Sample Collection Kit can be forwarded and DNA samples promptly submitted. If sire dies after mating or female dies during or after whelping a viable litter, take deceased Greyhound to veterinarian immediately for collection, and have Vet contact the NGA for instructions.

Name of Greyhound _____ Sex _____ Date of Birth _____

Sire & Dam _____

Location of Greyhound (handler, complete address and phone no.) _____

Name of Veterinarian to receive kit _____

Veterinarian's address _____

City, State, Zip Code _____

Phone Number _____ Fax Number _____

“I hereby apply to have the above-named Greyhound registered into the NGA’s DNA program, thereby permitting pups produced by this Greyhound to be registered with said Association. I make this application in the knowledge that the DNA samples are to be taken by a state-licensed veterinarian in good stead with the NGA, at no cost to the NGA. I understand that, even in the event of death of sire after breeding or a dam during or after whelping, DNA needs to be collected on the deceased Greyhound.

“I also absolve the NGA, any of its officers and its agents from any responsibility or blame associated with the taking and/or analysis of the blood or tissue samples from this Greyhound. I agree to abide and comply with all rules with respect to DNA registration as established by the NGA Board of Directors. I furthermore hold the NGA, any of its officers and its agents harmless in the event it cancels any registrations, refuses to register pups from matings, or imposes restrictions on pups from matings involving this Greyhound where DNA findings indicate that parentage may be in question. I understand that the NGA is the exclusive owner of the results of DNA fingerprinting under this program and that NGA has, in accordance with its rules, full discretionary authority to publish or disclose the results of its findings.”

Signature of Record Owner or Lessee

Date

Return this form with the following: 1) \$80 DNA Registration Fee, 2) Registration Certificate of Greyhound, to be DNA-stamped, to National Greyhound Association, PO Box 543, Abilene, Ks. 67410
