Applicant agrees to and understands that, while every reasonable effort will be made by NGA to refuse registration of a name that begins with a registered prefix, other than to the registrant of that prefix (or to his or her designee), on rare occasion a name will be inadvertently registered to another individual or entity. In such cases, provided the error is caught prior to publishing in the NGA Stud Book and the mis-named Greyhound has not had an official start, NGA will make every effort to re-name said Greyhound.
